

HyARC Seminar (HyARC Seminar#167)

Date: March 19 (Wednesday) 13:30-

Room: The meeting space (#617) of Research Institutes Building.

Speaker2: Prof. Finn Gunnar Nielsen (Senior Advisor New Energy /
Professor RDI OW, Statoil ASA/ Adjunct professor, University of Bergen)

Title: Floating offshore wind: Challenges and experiences

Abstract:

The world's first multi megawatt floating offshore wind turbine, HYWIND has been in operation for more than 4 years. During that period of time several other floating offshore wind turbines have also been launched. What is the experiences from the HYWIND project and what are the challenges and prospects of floating offshore wind concepts in general?
